Education

Kalasalingam Academy of Research and Education

Bachelor of Technology in Computer Science - 8.22 CGPA

Sriviliputtur, Tamil Nadu

June. 2022 – June 2026

Sachchidanand Sinha College

Higher Secondary Education (PCM) - 76.6%

Aurangabad, Bihar

Aug. 2020 – May 2022

B L Indo Anglian Public School

Matriculation - 84.2%

Aurangabad, Bihar

April. 2020

Experience

Alignerr.ai

May 2025 – June 2025

Python Script Evaluator Intern

Remote

- Evaluated 200+ AI-generated **Python scripts** from an **LLM** for accuracy and alignment with prompts.
- Improved skills in **Python**, **Prompt Engineering**, and **AI model evaluation** through real-world debugging.

Projects

AI-Powered Weekly Newsletter | [Live Demo](#) | [GitHub](#)

- Automated weekly collection of AI news from blogs, arXiv, and GitHub using **GitHub Actions**.
- Built backend with **FastAPI** and integrated **Google Gemini API** for reliable summarization.
- Deployed with **Docker**, **Render**, and **Supabase**, integrated with Mailchimp API for email delivery.
- **Tech Stack:** Python, FastAPI, Docker, PostgreSQL, Gemini API, GitHub Actions, Render, Mailchimp API

AI Resume and Interview Coach | [Live Demo](#) | [GitHub](#)

- Developed a tool that analyzes resumes against job descriptions, highlighting missing skills and **increasing shortlisting chances for students**.
- Added a **mock interview generator** producing technical and behavioral questions.
- Delivered as a **Streamlit app** with LangChain and Gemini API for student placement support.
- **Tech Stack:** Python, Streamlit, LangChain, Gemini API, Matplotlib

IPL Match Prediction and Analytics Web App | [Live Demo](#) | [GitHub](#)

- Built a web app to analyze IPL match data with **interactive dashboards**.
- Applied ML models on historical data to **predict match outcomes**.
- Designed for fans, analysts, and **businesses** (fantasy leagues, advertisers).
- **Tech Stack:** Python, Flask, Pandas, Plotly, Scikit-learn, REST API, Render

Technical Skills

Languages: Python, SQL

Developer Tools: VS Code, Jupyter Notebook, Git, GitHub

Technologies/Frameworks: NumPy, Pandas, Flask, FastAPI, Scikit-learn

Coursework: DBMS, OOP, DSA, OS, CN

Certifications

- **Learn Python Programming** – CodeChef (2025) | [Verify](#)
- **Introduction to Natural Language Processing** – Infosys (2024) | [Verify](#)
- **Learn SQL** – CodeChef (2025) | [Verify](#)
- **Data Visualization with Python** – Coursera(IBM) (2023) | [Verify](#)

Online Judges

- **LeetCode:** [singhrahul2511](#)
- **CodeChef:** [rahulkumar71](#)
